

# Body Builder

a) On the diagram of the digestive system above, what is the name of the circled part?

---

b) Match the words about the stomach from column A with the right definitions from column B and draw a line between them.

Column A	Column B
stomach	helps break down food
gastric juice	food goes here after the stomach
acid	protects the stomach walls
mucus	contains enzymes
3 – 4 hours	is a muscular bag
small intestine	time the food is in the stomach
