a) On the diagram of the respiratory system above, what is the name of the highlighted organs?

b) Match the words about the lungs from column A with the right definitions from column B and draw a line between them.

Column A	Column B
lungs	a small branch of a bronchus
ribcage	also known as the trachea
windpipe	takes place in the alveoli
bronchus	have a spongy texture
bronchiole	protects the lungs
Alveolus	tube from the windpipe into one lung
gaseous exchange	tiny sac at the end of a bronchiole
